Saint George, Bermuda

What qualifies an entire town for UNESCO World Heritage Site status? For St. George's (est. 1612) it was both British charm — stone buildings, neatly bricked streets, heraldic signs — and the British Army and Royal Navy military installations that protected it through the centuries. Among the town's many historic strongholds is Fort Catherine, housing breathtaking replicas of Britain's Crown Jewels.

Hamilton, Bermuda

Bermuda straddles the unlikely fence between all things British and Caribbean. Discover beautiful pink-sand beaches, vibrant flowers, buildings painted in soft pastels, wonderful shopping and British colonial charm. The sightseeing possibilities are almost endless!
